SUMMARY

Compliance and risk professional with experience in environmental permit review, compliance inspections, and regulatory reporting at a state ministry, now training full-time in cybersecurity for information security governance, risk, and compliance (GRC) roles. COSHH-certified risk assessor skilled at analyzing complex data and explaining technical findings to non-specialists.

CORE COMPETENCIES

Risk and compliance: risk assessment (COSHH-certified); permit and license review; compliance inspections; quality control

Governance and reporting: regulatory report writing; interpreting laws and standards; stakeholder communication

Data and analysis: quantitative analysis (R, PRIMER-E); laboratory and field methods (ICP-MS, PCR, sampling)

Security operations (in training): firewalls and VPNs; incident response and reporting; Splunk log analysis; AI-assisted threat analysis

GRC frameworks (in study): NIST CSF 2.0, NIST SP 800-30, ISO/IEC 27001, SOC 2

CYBERSECURITY TRAINING

Cybersecurity with AI Tools (full-time, 15 weeks - Expected) Nov 2026 – Mar 2027

Per Scholas, Pittsburgh, PA (remote, instructor-led)

- Configuring firewalls and VPNs to block unauthorized access and reduce network vulnerabilities in hands-on labs.
- Investigating threats and handling security incidents step by step, including writing incident reports.
- Monitoring security events in Splunk (log analysis, custom alerts) and using generative AI tools to analyze threat data.

COMPLIANCE AND REGULATORY EXPERIENCE

Graduate Assistant, Environmental Permitting and Compliance Aug 2019 – Aug 2020

Ministry of Environment and Natural Resources, State Secretariat, Ibadan, Nigeria

- Reviewed environmental permit applications and notices against regulatory requirements; coordinated timely license processing.
- Participated in compliance inspections of regulated industries to verify conformity with environmental quality standards.
- Worked across departments to collect, analyze, and interpret environmental data, and contributed to regulatory reports.

Laboratory Research Assistant Sep 2017 – Feb 2018

Department of Environmental Health Sciences, University of Ibadan, Nigeria

- Supported laboratory quality-control processes to ensure conformity with standard regulatory agency protocols.
- Analyzed water, soil, sediment, plant, and fish-tissue samples for contamination and regulatory parameters.

RESEARCH AND LEADERSHIP EXPERIENCE

Graduate Teaching and Research Assistant Sep 2024 – Apr 2026

Department of Biological Sciences, University of Pittsburgh, PA

- Supervised 18 undergraduate teaching assistants and led field and laboratory ecology sessions for 60+ students, explaining technical methods to non-specialists.
- Designed and ran experiments on plant tolerance to six heavy metals; generated and interpreted quantitative datasets.

CERTIFICATIONS AND TRAINING

Cisco Networking Academy (via Per Scholas, Oct 2026): Computer Hardware Basics; Operating Systems Basics

COSHH Risk Assessor Certification; **Project Management Essentials Certified**; 40-Hour HAZWOPER Certified

In progress (expected Mar 2027): CompTIA Security+; Splunk Core Certified User; Google AI Essentials; Google AI Professional

InforMEA UN Diplomas: Legal Frameworks on Pollution and Freshwater Resources; World Bank Environmental and Social Framework

EDUCATION

Erasmus+ Joint M.Sc. in Marine Environment and Resources 2021 – 2023

University of the Basque Country (Spain), University of Liège (Belgium), University of Bordeaux (France)

B.S. in Environmental Management and Toxicology 2019

Federal University of Agriculture, Abeokuta, Nigeria — thesis on groundwater quality in Shagamu and Ota (published, Heliyon)

PUBLICATION

Balogun, M.A. et al. (2022). Environmental health impacts and controlling measures of anthropogenic activities on groundwater quality in Southwestern Nigeria. *Environmental Monitoring and Assessment* (Springer).
